### Motivational • Humorous • Inspirational

Drawing from her international and multi-cultural experiences, Penny's writing and speaking has entertained, educated and equipped audiences of all ages and stages with the tools they need to successfully navigate the choppy waters of change and surprises of life that sometimes leave them saying, "Excuse me, I Didn't Order This!"

As the wife of a retired career naval officer and attaché, and mother of five (yours, mine and ours!) when it comes to change and resilience. . . Penny gets it! She counted it up once and figured she has packed and unpacked some of the same Christmas ornaments from 29 different moving trucks. She has moved family, pets, guppies and all her earthly possessions up and down the east coast of the USA, across the Pacific Ocean to Hawaii, the Atlantic to Europe and the Gulf of Mexico to South America.

With wisdom, warmth and humor, Penny's authentic and meaningful message has enlightened audiences at home and abroad with stories and life lessons taken from the Eiffel Tower to the cell tower in her own back yard.

Think what this "Penny Full of Thoughts" can bring to an audience looking for ways to lighten up, bounce back and enjoy their ever changing lives.
